

FIGHT AT NIGHT!

LOW LIGHT HANDGUN

PHASE 2

Most Lethal encounters occur in low light situations. This is true whether you are a police officer on the beat, a soldier in combat or an armed citizen. This important training will teach you some of the latest low light techniques that you need to survive a violent confrontation. Topics include;

- Proper light deployment
- Low Light movement and tactics
- Flashlight shooting techniques
- Force on Force engagements

Equipment: All equipment is provided. Bring the flashlight of your choice
