

FIGHT AT NIGHT!

'Low Light/Laser Handgun Course'

FBI statistics prove that more than 80% of all lethal confrontations take place in low light situations. This is true whether you are a cop, soldier or housewife defending your home. This course will teach you the most modern low light shooting tactics & techniques that will help you survive a low light confrontation! This is the same block of instruction that we give to local police and military units. Topics will include;

- **How to select proper lighting tools (hand or weapon mounted)**
- **Various LIVE FIRE shooting techniques**
- **Loading, unloading and clearing stoppages in the dark**
- **White light employment tactics/techniques**
- **Shooting and communicating with a partner**

Equipment: Handgun, holster, extra magazines or speed loaders and at least one hand held white light, knee pads. Surefire, Streamlight, Gladius, are good flashlights but any high intensity light is fine. Bring a minimum of 200 rounds of range ammo.

Tuition: Only \$80.00 per person. This includes all training, hand outs, range time, targets and a certificate of training from the Institute.

When: July 18th, 2009, 5-9 pm

Where: Rangemasters of Utah, 712 W. 1300 N., Springville, UT

Registration: Register at Rangemasters' or ONLINE at www.combat-terror.com. Only 10 slots are open for this course.
